Real-Time Programming SS2010

Registration for exercises:
- Please go to the following link (also available from the course website):
  
  http://uebungsgruppen.informatik.uni-stuttgart.de/
- Select „Real-Time Programming“
- You will be asked for a login and a password, please use „rtp“ as the login and „icpp“ as the password
- Select the desired group
- Enter your personal data and select „Eintragen“ (register)

Important notes:
- The registration pages are in German, the translation key can be found on the course website
- Registration is available from the university network only
Real-Time Programming SS2010

Please keep track of the course website for updates

http://www.iste.uni-stuttgart.de/ps/Lehre/SS2010/V_RTP/index.html

For further queries please contact us:

Aoun.Raza@informatik.uni-stuttgart.de
(unavailable till May 5, 2010)
Mikhail.Prokharau@informatik.uni-stuttgart.de

Exercises and examples in the course of the lectures require a basic understanding of the Ada programming language.
